AVOIDING ETCH-CRITICAL REGIONS"

Assistant Commissioner for Patents
Washington, D.C. 20231

RECEIVED
APR 09 2001
Technology Center 2600

SIR:

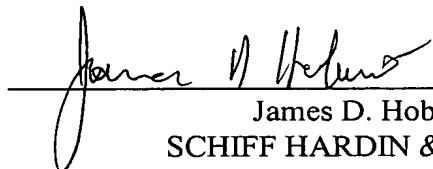

In accordance with the provisions of 37 CFR 1.56, 1.97 and 1.98, it is requested that a citation and examination of the references listed on the attached Form PTO-1449 be made during the course of the examination of the above-identified application.

R E M A R K S

Applicant's attorneys have received German 196 31 160 and pages from Handbuch der Leiterplattentechnik as examples of standard technique. From a search, U.S. Patent No. 5,885,748, which claims priority from the same Japanese Application as German 196 31 160, was located. Copies of these three references are attached herewith. It is noted that the undersigned does not have or know of translations of the pages from the handbook.

Since these references are being submitted before any action on the merits has been received, it is respectfully submitted that no government fee is required for the Examiner to consider these references.

Respectfully submitted,

James D. Hobart (Reg. No. 24,149)
